

THE SEES

RESTRICTOR

THE PREFERRED MECHANICAL DOOR RESTRICTOR

The requirements for Door Restrictors were implemented to prevent passengers from falling into an open hoistway underneath the elevator platform while trying to evacuate from an elevator that is stuck between floors.

- American Society of Mechanical Engineers

EASE OF INSTALLATION

Its simple design makes for fast & easy installation.

ZERO MAINTENANCE

No call-backs!

UNIVERSAL DESIGN

Fits all door systems.

SEES-RESTRICTOR-001 | CAM 60"

SEES-RESTRICTOR-003
Flag, Small, Adjustable 1.25"-2"

SEES-RESTRICTOR-002 | CAM 50"
